PROJECTS

TRADE2CART (STATIC E-COMMERCE APPLICATION)   SEP 2024 - (PRESENT)

I developed Trade2Cart, a live e-commerce and trade exchange platform, offering a seamless and engaging shopping experience. It features responsive design, intuitive navigation, and modern animations. The platform enhances customer interaction through real-time communication via WhatsApp integration. Focus is placed on smooth product display and user experience to ensure high engagement.
Technology: React ,tailwindCSS ,React Libraries ,WhatsApp Integration ,Modern Animations
Live Hosting Link: https://www.trade2cart.in/

CLOTH SHOES E-COMMERCE PLATFORM   APR 2024 - JUN 2024

The Cloth Shoes e-commerce platform was developed using the MERN stack, providing a seamless shopping experience. Key features include user-friendly navigation, secure transactions, and personalized recommendations. The platform also includes an admin panel for efficient inventory management and analytics to track business performance.
Technology: React, React Libraries, React Icons, TailwindCSS, Node.js, Express, Bcrypt, MongoDB, Axios, and more
.Live Hosting Link:https://shoeshop-lac.vercel.app/

MUSIC MARINA DYNAMIC WEB APPLICATION   MAR 2024 - MAY 2024

Music Marina is redefining the music event experience by providing a user-friendly platform for event management, ticket booking, and analysis. With an intuitive interface and robust functionality, Music Marina aims to revolutionize the way events are organized and attended.
Technology: React, React Libraries, React Icons, TailwindCSS, Node.js, Express, Bcrypt, MongoDB, Axios, and more
